No. II - FEBRUARY

orial 68
n Activities 73
eport by the ITU
echnical co-operation in telecommunications in 1970 . . 75
ferences or meetings external to the ITU 85
s and Achievements
ully automatic telex calls around the world during the
CITT meeting in Venice 86
igh-speed data channels in the local network 87

Page

The effect of launch success probability and spacecraft mean time to failure on space segment costs
• R. D. SWENSEN 89
Some considerations on the structure and objectives of the telecommunication sector
• J. de la CALLE GARCÍA 101
New limits of power flux density from stations in the space radiocommunication services sharing frequency bands with stations in the terrestrial radiocommunication services
• M. SHAKKÉD 105
Basic indices for ionospheric propagation 108
ITU Conferences — XXVI
• 31. International Consultative Committee for Long-Distance Telephone Communications (CCI)—8th Plenary Assembly—Paris, 14-21 September 1931 109

No. III - MARCH

Editorial 136
Union Activities 145
Conferences or meetings external to the ITU 148
Ideas and Achievements
• Integrating Iran's telecommunications 152
• The meteorological satellite " Eole " 155
• Microwave hops in a rainstorm 158
Relationship between Ottawa 10.7 cm solar radio noise flux and Zurich sunspot number
• F. G. STEWART and M. LEFTIN 159
Link systems in automatic switching
• C. JACOBAEUS 170
Telecommunications market demand and investment requirements
• L. L. BOWER 177

No. IV - APRIL

Editorial . . . 204
Union Activities . . . 210
Conferences or meetings external to the ITU . . . 212
Ideas and Achievements
• Advanced solar cell prediction technique . . . 218
• 10 to 100 GHz propagation study . . . 220
• Solid state crosspoint used in experimental wideband switching system . . . 222
• Simpler microwave power calibration developed at NBS 223
Components for telecommunication satellites
• H. ARCISZEWSKI . . . 224
Some aspects of telecommunication training in developing countries
• C. A. WILTSHIRE . . . 233
Developments and uses of electronic time-division switching
• F. VALLESE . . . 237
The Journal one hundred years ago . . . 240
ITU Cinema Library . . . 241

No. V - MAY

Editorial . . .
Union Activities . . .
Conferences or meetings external to the ITU . . .
Ideas and achievements
• Radio beam creates giant heat bubbles in ionosphere . .
• The Netherlands roadside telephone pillar system . . . .
• High-capacity mobile communications system proposed
Telecommunications in the State of Kuwait
• A.R.K. AL-GHUNAIM and S. SESHADRI . . . .
Venice Plan 1971 — Interregional telecommunication network
• M. MALEK-ASGHAR . . .
The book of the month . . .
Basic indices for ionospheric propagation . . .
Radio Amateurs

No. VI - JUNE

Editorial . . .
Union Activities . . .
Conferences or meetings external to the ITU . . .
Ideas and Achievements
• Amplifier correction system "feedforward" . . .
• School television — the teacher's helpmate . . .
• Reception from meteorological satellites . . .
Sound broadcasting coverage and frequency planning in the LF/MF bands
• H. EDEN . . .
International telecommunication, where co-operation is the message
• G. D. WALLENSTEIN . . .
The Journal one hundred years ago . . .
The dissemination of technical information as a form of technical co-operation: the work of the CCITT Special Autonomous Working Parties " GAS " and publication of special issues of the " Telecommunication Journal " — Possible lines of action
• R. CHAPUIS . . .
ITU Cinema Library . . .
